- E. GroupWise Monitor Agent
- F. GroupWise Monitor Application

Correct Answers: E F

10: Why does an external entity appear in the GroupWise address book?

- A. For addressing purposes only
- B. For administrative purposes only
- C. So the external entity can connect to eDirectory
- D. It does not display in the address book. It only appears in eDirectory
- E. To allow the administrator to run Mailbox/Library Maintenance in the external entity to make sure there is no database corruption

Correct Answers: A

11: By default, all users in the GroupWise system can use GWIA services. You can prevent access to GWIA services for individual users, distribution lists, post offices, or domains. Users can be members of more than one class of service, resulting in conflicting privileges. If a user has a class membership in a distribution list that prevents SMTP outgoing messages and has class membership in another distribution list that allows SMTP outgoing messages, which would apply?

- A. The class membership in the distribution list that was created last.
- B. The class membership in the distribution list that was created first.
- C. The class membership in the distribution list that offers the least access takes precedence.
- D. The class membership in the distribution list that offers the greatest access takes precedence.

Correct Answers: D
