

VMware

Exam 1V0-605

**VMware Certified Associate 6 – Desktop and Mobility Fundamentals
Exam**

Version: 6.0

[Total Questions: 50]

Question No : 1

Employees expect more flexibility to securely access corporate applications and data using a variety of company and personally-owned devices, regardless of location.

Which solution is described in this statement?

- A. Application-Centric Computing
- B. Software Defined Data Central
- C. Remote Office Branch Office (ROBO)
- D. Workforce Mobility

Answer: D

Question No : 2

An administrator wants to deploy application pools, but the company is concerned about securing and managing them. How do application pools overcome the company's concerns?

- A. Applications are presented the same way on different devices.
- B. Applications can be installed locally.
- C. Applications are stored centrally in the data center.
- D. Applications are dedicated for each user.

Answer: B

Question No : 3

An administrator is attending a planning meeting for a VMware Horizon (with View) deployment and is asked for a definition of end user computing?

How should the administrator respond?

- A. End user computing is the process of granting everyone administrator-level access to their virtual desktop.
- B. End user computing is maintaining the licenses for each software package used within the environment.

C. End user computing is the process of life cycling everyone's physical desktop every three years.

D. End user computing is the process of providing data access, regardless of the client platform.

Answer: D

Question No : 5

An administrator is concerned about reoccurring licensing issues within their; organization

Which product or component will help resolve these issues?

A. View Administrator

B. VMware Workspace Portal

- C. Linked Clones
- D. VMware Mirage

Answer: B

Question No : 6

Which statement reflects a Security challenge that could be addressed by a new VMware Horizon (with View) deployment?

- A. We need a centralized way to store data that is under our company's control, regardless of whether the data is stored in local datastores or within a hybrid cloud provided solution.
- B. We want a simple, easy way to provision virtual desktops, determine who gets to use them, and specify who can check them out for remote access.
- C. Some of our sales force do not live anywhere near one of our offices. We'd like to issue them a laptop and manage the physical laptop remotely.
- D. We have a lot of our sales force that rarely work in the office. We need a way to deploy new applications to them and to keep them updated.

Answer: B

Question No : 7

A medium sized company wants to deploy on-premises desktops and application a unified workspace. The company has chosen to deploy Virtual SAN and offer a unified workspace.

Which VMware Horizon edition does the company need to purchase?

- A. VMware Horizon DaaS
- B. VMware Horizon Enterprise
- C. VMware Horizon Advanced
- D. VMware Horizon View Standard

Answer: C

Question No : 8

An administrator receives a trouble ticket reporting a low vRealize Operations for Horizon 6 score value on an object (for example, 15 out of 100).

Which course of action should the administrator recommend?

- A. The value indicates a severe problem state, a red badge, and this should be investigated immediately.
- B. The value indicates a normal state and since there are no real Issues or current problems, no action should be taken.
- C. The value indicates a less severe state, a yellow badge, however this object should be monitored and should be flagged for investigation if the value changes.
- D. The value of a badge must be correlated with the color of the badge to determine if the state is normal or if there is a potential problem.

Answer: D

Question No : 10

An administrator wants to make a centralized Web Management Console available to desktop and mobile users. End users should be able to request applications and virtual desktop resources customized specifically for them.

Which VMware product can offer this functionality?

- A. VMware ThinApp
- B. VMware Workspace Portal
- C. VMware vRealize Automation
- D. VMware Mirage

Answer: D

Question No : 11

A business has employees in a call center that need access to the same database and call center applications and wants to make it easy to deploy, patch and upgrade these applications.

Which Horizon (with View) feature meets this business need?

- A. Persona Management
- B. Dedicated Pools
- C. Full Clones
- D. Linked Clones

Answer: A

Question No : 12

An application needs to be deployed to corporate employees to assist them with daily administrative duties. In order to comply with corporate policy, the application needs to be verified to identify common application risks, such as access to privacy settings and insecure network connections.

Which VMware AirWatch product provides this capability?

- A. App Catalog

- B. App Reputation Scanning
- C. Mobile device management
- D. App Wrapping

Answer: D

Question No : 13

Corporate users require a solution that permits a complete separation of corporate and personal email, that is encrypted by 256-bit encryption, and that can be secured is a device is stolen.

Which VMware product can provide this functionality?

- A. AirWatch Inbox
- B. AirWatch Workspace
- C. AirWatch Browser
- D. AirWatch Secure Content Locker Collaboration

Answer: C

Question No : 14

A company wants to deploy VMware Workspace Portal in its environment, but is concerned that users will be able use unauthorized applications. Which mechanism of VMware Workspace Portal prevents this behavior?

- A. Authorized user credentials are detected from Active Directory.
- B. Unauthorized access to applications is detected and the administrator is notified.
- C. User attributes are detected and policies are enforced across applications.
- D. Access to applications by default is not allowed. Each user must request access via the interface.

Answer: C

Question No : 15
