

Vendor: Oracle

Exam Code: 1Z0-450

Exam Name: Oracle Application Express 4: Developing
Web Applications

Version: DEMO

1. Your application includes a standard tab set TSI with two tabs. You want the tabs to show up only in page 1 but not in page 2. Which actions achieve the stated requirement?
- A. Edit the tab definition. In the Tab Also Current for Pages field, specify the page number for which the tab is to be rendered.
 - B. Edit the tab definition. Select "Current pageExpression 1" for Condition Type and then specify page 1 in the "Expression 1*" field. Repeat this process for the other tab.
 - C. Edit the tab definition. Select "Current pageisNOT in Expression 1" for Condition Type and then specify the page number for which the tab is to render in the "Expression 1" field.
 - D. Change the region template on the page where the tabs should not be rendered.
- Answer: A

2. The Interactive Report is displayed in the Exhibit?

The screenshot shows an Interactive Report interface. At the top, there is a search bar, a 'Rows' dropdown set to 15, a 'Go' button, and a settings gear icon. Below the search bar, the report is titled 'Sales Representative' with a filter icon and a refresh icon. The report is divided into three sections, each for a different sales representative:

- Sales Representative : Carol Tamor**

Customer	Product
Karen Mavil	Movie DVD
Karen Mavil	Wii Game
- Sales Representative : Mike Teller**

Customer	Product
Charlie Valley	Movie DVD
- Sales Representative : Nancy Young**

Customer	Product
Marcie Haverall	Playstation Game
Marcie Haverall	Wii Game

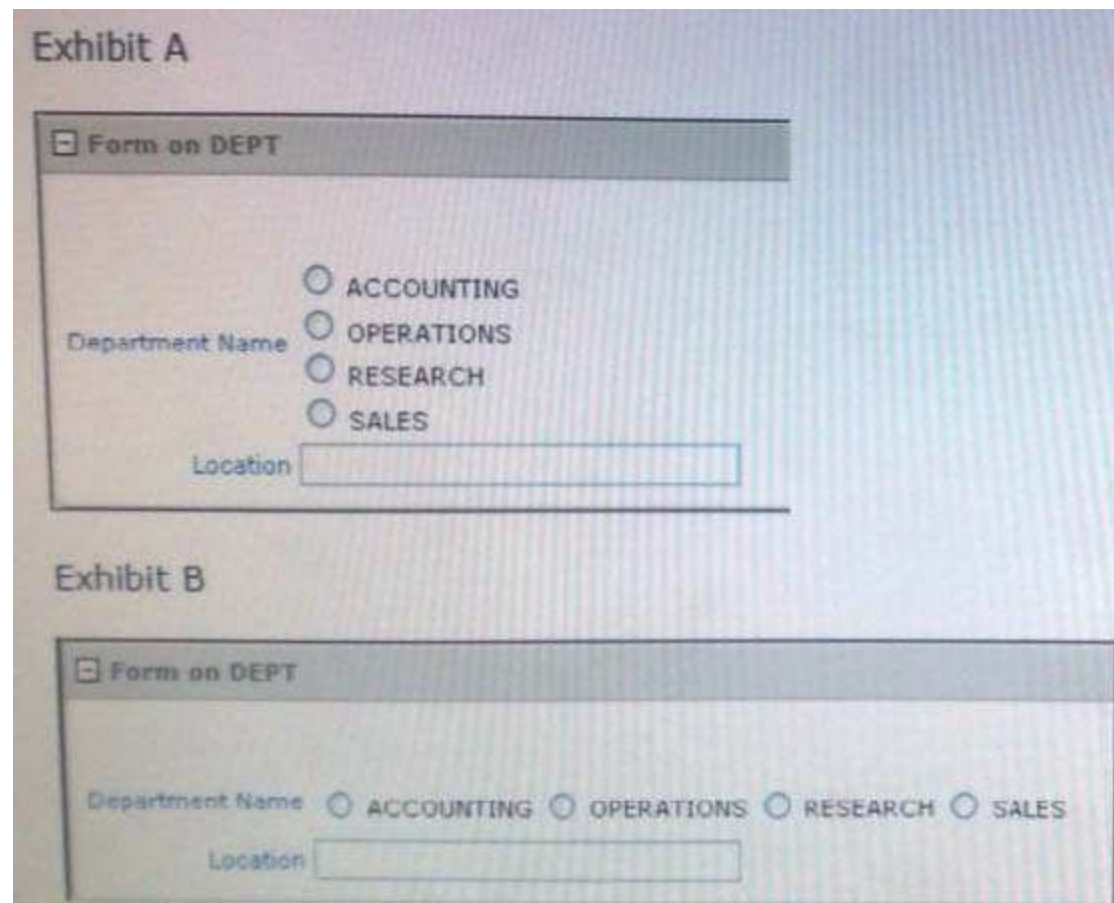

Which combination of three actions would need to take place to create the interactive report?

- A. Create an Interactive Report region to show the list of EMPLOYEES and PRODUCTS based on the Customer ID.
- B. Create an Interactive Report region that contains a query between the CUSTOMERS, EMPLOYEES, PRODUCTS and SALES table.
- C. Create an SQL Report region that contains a query between the CUSTOMERS, PRODUCTS and SALES tables only.
- D. Create a filter on Customer FIRST_NAME and LAST_NAME.

- E. Create a Control Break on Sales Representative.
- F. Concatenate FIRST_NAME and LAST_NAME for both CUSTOMERS and EMPLOYEES in the query.

Answer: E

3. There are four departments listed as a radio group, appearing one below the other in a form (View Exhibit A). You want to edit the item attributes so that they appear as shown in Exhibit B (horizontally, next to each other). Which action would you take to satisfy this requirement?

- A. Change "Begin on new Line" attribute of radio group to No and set "Begin on New Field" attribute to Yes.
- B. Change "Begin on new Line" attribute of radio group to Yes and set "Begin on New field" attribute to Yes.
- C. Change "Begin on new Line" attribute of radio group to No and set "Begin on New field" attribute to No.
- D. Edit the List of Values section for the item. Change the "Number of Columns" attribute to the number of columns that should be displayed horizontally.
- E. Edit the List of Values In Shared Components. Specify the number of columns that you want the List of Values to span.

Answer: D
