

**Exam Code:** GB0-360

**Exam Name:** Designing Enterprise-level Networks

**Vendor:** Huawei

**Version:** DEMO

## Part: A

1: Suppose that a central station connects to a frame relay network via a serial line. Five virtual circuits have been defined to communicate with 5 remote stations respectively. Now the remote station can not receive the route update packet, which by examination is caused by split horizon. What do you suggest to resolve this problem? ( )

- A.Specify static routes
- B.Enable sub-interfaces
- C.Disable the split horizon
- D.Filter the route
- E.Modify the metric

**Correct Answers: A B C**

2: On a Quidway router running OSPF, the cost for a link with a default bandwidth 100Kbps will be ( )

- A.100
- B.1000
- C.10000
- D.20000

**Correct Answers: B**

3: Which of the following should be considered during your requirement collection for mainframe computer? ( )

- A.Backups
- B.Security
- C.Usage rate
- D.Database

**Correct Answers: A B C D**

4: Which of the following are suitable for working in the core layer of a large network? ( )

- A.Quidway NetEngine 80
- B.Quidway R2630
- C.Quidway R4001
- D.Quidway NetEngine 16E

**Correct Answers: A D**

5: Which of the following will affect the scalability of the network? ( )

- A.Personnel changes
- B.Requirement for remote office
- C.Requirement for mobile office
- D.Service changes

**Correct Answers: A B C D**

6: Which are the advantage of the hierarchical network design model? ( )

- A.Easy to extend
- B.Easy for diagnosis and troubleshooting
- C.Easy for management
- D.Cost saving

**Correct Answers: A B C D**

7: Which of the following can provide power supply redundancy? ( )

- A.Quidway AR18-12
- B.Quidway AR28-80
- C.Quidway AR18-20
- D.Quidway NetEngine16

**Correct Answers: D**

8: The related design documents must accompany with the network solution, such as solution proposal. ( )

- A.True
- B.False

**Correct Answers: A**

9: Quidway AR18 series routers are meant for ( ).

- A.Core layer
- B.Access layer
- C.Convergence layer
- D.All layers

**Correct Answers: B**

10: You should make a analysis according to the information collected for the network design. Which of the following should among your consideration for the network with data, voice and video transmission? ( )

- A.Network scale
- B.Reliability
- C.Real-time
- D.WAN connection type to be adopted

**Correct Answers: A B C D**
