QUESTION 33

You have a web app named WebApp1 that uses an Azure App Service plan named Plan1. Plan1 uses the D1 pricing tier and has an instance count of 1. You need to ensure that all connections to WebApp1 use HTTPS. What should you do first?

- A. Scale up Plan1.
- B. B.Scale out Plan1.
- C. Disable anonymous access to WebApp1.
- D. Modify the connection strings for WebApp1.

Correct Answer: A

Explanation:

The D1 (Shared) pricing tier does not support HTTPS.

QUESTION 34

You have an Azure subscription named Subscription1. Subscription1 contains the resource groups in the following table.

[Download Full Version AZ-300 Exam Dumps\(Updated in Feb/2023\)](#)

Name	Azure region	Policy
RG1	West Europe	Policy1
RG2	North Europe	Policy2
RG3	France Central	Policy3

RG1 has a web app named WebApp1. WebApp1 is located in West Europe. You move WebApp1 to RG2. What is the effect of the move?

- A. The App Service plan to WebApp1 moves to North Europe. Policy2 applies to WebApp1.
- B. The App Service plan to WebApp1 moves to North Europe. Policy1 applies to WebApp1.
- C. The App Service plan to WebApp1 remains to West Europe. Policy2 applies to WebApp1.
- D. The App Service plan to WebApp1 remains to West Europe. Policy1 applies to WebApp1.

Correct Answer: C

Explanation:

You can move an app to another App Service plan, as long as the source plan and the target plan are in the same resource group and geographical region.

The region in which your app runs is the region of the App Service plan it's in. However, you cannot change an App Service plan's region.

QUESTION 35

HOTSPOT

You are developing a workflow solution using Azure technologies.

What should you implement to meet each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Tool
Debug the solution by using Visual Studio.	<div><div></div><div>Durable functions only</div><div>Logic Apps only</div><div>Durable functions and Logic Apps</div></div>
Use a collection of ready-made actions.	<div><div></div><div>Durable functions only</div><div>Logic Apps only</div><div>Durable functions and Logic Apps</div></div>
Deploy the component by using Visual Studio Team Services.	<div><div></div><div>Durable functions only</div><div>Logic Apps only</div><div>Durable functions and Logic Apps</div></div>

QUESTION 36

You plan to use the Azure Import/Export service to copy files to a storage account.

Which two files should you create before you prepare the drives for the import job? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. an XML manifest file
- B. a driveset CSV file
- C. a dataset CSV file
- D. a PowerShell PS1 file
- E. a JSON configuration file

Correct Answer: BC

Explanation:

B: Modify the driveset.csv file in the root folder where the tool resides.

C: Modify the dataset.csv file in the root folder where the tool resides. Depending on whether you want to import a file or folder or both, add entries in the dataset.csv file

<https://docs.microsoft.com/en-us/azure/storage/common/storage-import-export-data-to-files>

QUESTION 37

You create a social media application that users can use to upload images and other content.

Users report that adult content is being posted in an area of the site that is accessible to and intended for young children.

You need to automatically detect and flag potentially offensive content. The solution must not require any custom coding other than code to scan and evaluate images.

What should you implement?

- A. Bing Visual Search

- B. Bing Image Search
- C. Custom Vision Search
- D. Computer Vision API

Correct Answer: D

QUESTION 38

DRAG DROP

You have an Azure subscription that is used by four departments in your company. The subscription contains 10 resource groups. Each department uses resources in several resource groups.

You need to send a report to the finance department. The report must detail the costs for each department. Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions		Answer Area
Assign a tag to each resource group.	<div>></div> <div><</div>	
Open the Resource costs blade of each resource group.		
Download the usage report.		
Assign a tag to each resource.		
From the Cost analysis blade, filter the view by tag.		

Correct Answer:

Actions		Answer Area
Assign a tag to each resource group.	<div>></div> <div><</div>	Assign a tag to each resource.
Open the Resource costs blade of each resource group.		From the Cost analysis blade, filter the view by tag.
Download the usage report.		Download the usage report.
Assign a tag to each resource.		
From the Cost analysis blade, filter the view by tag.		

QUESTION 39

DRAG DROP

You are developing Azure WebJobs.

You need to recommend a WebJob type for each scenario.

Which WebJob type should you recommend? To answer, drag the appropriate WebJob types to the correct scenarios. Each WebJob type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.
