A. Checkpoint level

B. Ceiling level

C. Clipping level

D. Threshold level

Correct Answer: C

QUESTION 1228

The most prevalent cause of computer center fires is which of the following?

A. AC equipment

B. Electrical distribution systems.

C. Heating systems

D. Natural causes

Correct Answer: B

QUESTION 1229

An offsite backup facility intended to operate an information processing facility, having no computer or communications equipment, but having flooring, electrical writing, air conditioning, etc. Is better known as a?

A. Hot site
B. Duplicate processing facility
C. Cold site
D. Warm site

Correct Answer: C

QUESTION 1230

Which of the following are necessary components of a Multi-Level Security Policy?

A. Sensitivity Labels and a "system high" evaluation.
B. Sensitivity Labels and Discretionary Access Control.
C. Sensitivity Labels and Mandatory Access Control.
D. Object Labels and a "system high" evaluation.

Correct Answer: C

QUESTION 1231

Which of the following, used to extend a network, has a storage capacity to store frames and act as a store-and-forward device?

A. Bridge
B. Router
C. Repeater
D. Gateway

Correct Answer: A

QUESTION 1232

Which of the following is addressed by Kerberos?

A. Authorization and authentication.
B. Validation and integrity.
C. Confidentiality and integrity.
D. None of the above.

Correct Answer: C

QUESTION 1233

Access Control techniques do not include which of the following choices?

A. Relevant Access Controls
B. Discretionary Access Control
C. Mandatory Access Control
D. Lattice Based Access Control

Correct Answer: A

QUESTION 1234

Why is public key cryptography recommended for use in the process of securing facsimiles during transmission?

A. Keys are never transmitted over the network.
B. Data compression decreases key change frequency.
C. Key data is not recognizable from facsimile data.
D. The key is securely passed to the receiving machine.

Correct Answer: D

QUESTION 1235

Database views are not used to:

A. Implement referential integrity.
B. Implement least privilege.
C. To implement content-dependent access restrictions.
D. Implement need-to-know.

Correct Answer: A

QUESTION 1236

Which of the following is most concerned with personnel security?

A. Management controls.
B. Operational controls.
C. Technical controls.
D. Human resources controls.

Correct Answer: B

QUESTION 1237

Which of the following statements pertaining to the Trusted Computer System Evaluation Criteria (TCSEC) is incorrect?

A.   With TCSEC, functionality and assurance are evaluated separately.
B.   TCSEC provides a means to evaluate the trustworthiness of an information system.
C.   The Orange book does not cover networks and communications.
D.   Data base management systems are not covered by the TCSEC.

Correct Answer: A

QUESTION 1238

Which of the following could illegally capture network user passwords?

A.   Data diddling
B.   Sniffing
C.   Spoofing
D.   Smurfing

Correct Answer: B

QUESTION 1239

Which trusted facility management concept implies that two operators must review and approve the work of each other?
