To what does covert channel eavesdropping refer?

- A. Using a hidden, unauthorized network connection to communicate unauthorized information.
- B. The use of two-factor passwords.
- C. Nonbusiness or personal use of the Internet.
- D. Socially engineering passwords from an ISP.

**Correct Answer: A**

### **QUESTION 1564**

In a relational database system, a primary key is chosen from a set of:

- A. Candidate keys
- B. Foreign keys
- C. Secondary keys
- D. Cryptographic keys

**Correct Answer: A**

### **QUESTION 1565**

Controlling access to information systems and associated networks is necessary for the preservation of their confidentiality, integrity, and availability. Which of the following is NOT a goal of integrity?

- A. Preservation of the internal and external consistency of the information.
- B. Prevention of the modification of information by unauthorized users.
- C. Prevention of the unauthorized or unintentional modification of information by authorized users.
- D. Prevention of authorized modifications by unauthorized users.

**Correct Answer: D**

### **QUESTION 1566**

To what does 10Base-5 refer?

- A. 100 Mbps unshielded twisted pair cabling.
- B. 10 Mbps thinnet coax cabling rated to 185 meters maximum length.
- C. 10 Mbps thicknet coax cabling rated to 500 meters maximum length.
- D. 10 Mbps baseband optical fiber.

**Correct Answer: C**

**QUESTION 1567**

Which choice below is the BEST description of an Annualized Loss Expectancy (ALE)?

- A. The expected risk factor of an annual threat event, derived by multiplying the SLE by its ARO.
- B. The percentile of the value of the asset expected to be lost, used to calculate the SLE.
- C. A value determined by multiplying the value of the asset by its exposure factor.
- D. An estimate of how often a given threat event may occur annually.

**Correct Answer: A**

**QUESTION 1568**

Which statement below is accurate about the difference between issue-specific and system-specific policies?

- A. Issue-specific policy commonly addresses only one system.
- B. Issue-specific policy is much more technically focused.
- C. System-specific policy is much more technically focused.
- D. System-specific policy is similar to program policy.

**Correct Answer: C**

**QUESTION 1569**

Which protocol below does NOT pertain to e-mail?

- A. SMTP
- B. CHAP
- C. POP
- D. IMAP

**Correct Answer: B**

**QUESTION 1570**

Which one of the following security areas is directly addressed by Kerberos?

- A. Confidentiality
- B. Frequency analysis
- C. Availability
- D. Physical attacks

## **[Download Full Version CISSP Exam Dumps\(Updated in Feb/2023\)](#)**

**Correct Answer: A**

### **QUESTION 1571**

In finger scan technology:

- A. More storage is required than in fingerprint technology.
- B. The full fingerprint is stored.
- C. The technology is applicable to large, one-to-many database searches.
- D. Features extracted from the fingerprint are stored.

**Correct Answer: D**

### **QUESTION 1572**

Which of the following is NOT a VPN remote computing protocol?

- A. PPTP
- B. L2F
- C. L2TP
- D. UTP

**Correct Answer: D**

### **QUESTION 1573**

What does CSMA stand for?

- A. Common Systems Methodology Applications.
- B. Carrier Sense Multiple Access.
- C. Carrier Sense Multiple Attenuation.
- D. Carrier Station Multi-port Actuator.

**Correct Answer: B**

### **QUESTION 1574**

What is the protocol that supports sending and receiving email?

- A. SNMP
- B. RARP
- C. SMTP
- D. ICMP

## **[Download Full Version CISSP Exam Dumps\(Updated in Feb/2023\)](#)**

**Correct Answer: C**

### **QUESTION 1575**

The fundamental entity in a relational database is the:

- A. Cost
- B. Pointer
- C. Relation
- D. Domain

**Correct Answer: C**

### **QUESTION 1576**

Which is NOT a property of a packet-switched network?

- A. Connectionless network.
- B. Packets are assigned sequence numbers.
- C. Connection-oriented network.
- D. Characterized by bursty traffic.

**Correct Answer: C**

### **QUESTION 1577**

Which choice is NOT an accurate description of C.I.A.?

- A. A stands for authorization.
- B. I stands for integrity.
- C. A stands for availability.
- D. C stands for confidentiality.

**Correct Answer: A**

### **QUESTION 1578**

In a wireless General Packet Radio Services (GPRS) Virtual Private Network (VPN) application, which of the following security protocols is commonly used?

- A. SSL
- B. IPSEC
- C. TLS

## **[Download Full Version CISSP Exam Dumps\(Updated in Feb/2023\)](#)**

D. WTP

**Correct Answer: B**

### **QUESTION 1579**

Which choice below is NOT an example of appropriate security management practice?

- A. Reviewing access logs for unauthorized behavior.
- B. Monitoring employee performance in the workplace.
- C. Promoting and implementing security awareness programs.
- D. Researching information on new intrusion exploits.

**Correct Answer: B**

### **QUESTION 1580**

Which choice below is the BEST description of a vulnerability?

- A. A potential incident that could cause harm.
- B. The minimization of loss associated with an incident.
- C. A weakness in a system that could be exploited.
- D. A company resource that could be lost due to an incident.

**Correct Answer: C**

### **QUESTION 1581**

The description of a relational database is called the:

- A. Schema
- B. Record
- C. Attribute
- D. Domain

**Correct Answer: A**

### **QUESTION 1582**

Which choice below would NOT be considered an element of proper user account management?

- A. A process for tracking access authorizations should be implemented.
- B. Periodically re-screen personnel in sensitive positions.
- C. The users' accounts should be reviewed periodically.
- D. Users should never be rotated out of their current duties.
