Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

# **QUESTION 52**

# HOTSPOT

You have three devices enrolled in Microsoft Intune as shown in the following table.

Name	Platform	Member of
Device1	Windows 10	Group1
Device2	Android	Group2, Group3
Device3	Windows 10	Group2, Group3

The device compliance policies in Intune are configured as shown in the following table.

Name	Platform	Assigned
Policy1	Windows 10 and later	Yes
Policy2	Android	No
Policy3	Windows 10 and later	Yes

The device compliance policies have the assignments shown in the following table.

Name	Include	Exclude
Policy1	Group3	None
Policy2	Group2	Group3

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
Policy1 applies to Device3.	0	0
Policy2 applies to Device2.	0	0
Correct Answer:		
Statements	Yes	No
Policy1 applies to Device3.	Ū.	0
Policy2 applies to Device2.	Ū,	0

# **QUESTION 53**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals- Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription.

You discover that some external users accessed content on a Microsoft SharePoint site. You modify the SharePoint shoring policy to prevent sharing outside your organization.

You need to be notified if the SharePoint sharing policy is modified m the future.

Solution: From the SharePoint site, you create an alert.

Does this meet the goal?

- A. Yes
- B. No

## Correct Answer: B

#### **QUESTION 54**

Your company has a Microsoft Azure Active Directory (Azure AD) tenant named contoso.com.

You sign for Microsoft Store for Business.

The tenant contains the users shown in the following table.

Name	Microsoft Store for Business role	Azure AD role		
User1	Purchaser	None		
User2	Basic Purchaser	None		
User3	None	Application administrator		
User4	None	Cloud application administrator		
User5	None	None		

Microsoft Store for Business has the following Shopping behavior settings:

Allow users to shop is set to On

• Make everyone a Basic Purchaser is set to Off

You need to identify which users can install apps from the Microsoft for Business private store.

Which users should you identify?

A. A.User1, User2, User3, User4, and User5

- B. User1 only
- C. User1 and User2 only
- D. User3 and User4 only
- E. User1, User2, User3, and User4 only

## Correct Answer: C

#### Explanation:

Allow users to shop controls the shopping experience in Microsoft Store for Education. When this setting is on, Purchasers and Basic Purchasers can purchase products and services from Microsoft Store for Education.

# **QUESTION 55**

HOTSPOT Your company is based in the United Kingdom (UK).

Users frequently handle data that contains Personally Identifiable Information (PII).

You create a data loss prevention (DLP) policy that applies to users inside and outside the company. The policy is configured as shown in the following exhibit.

New DLP policy	Review your settings	
Choose the information to protect	Template name U.K. Personally Identifiable Information (PII) Data	Edit
Name your policy Choose locations	Policy name U.K. Personally Identifiable Information (PII) Data	Edit
Policy settings	Description	Edit
Review your settings	Applies to content in these locations Exchange email SharePoint sites OneDrive accounts	Edit
	Policy settings If the content contains these types of sensitive info: U.K., National Insurance Number (NINO)U.S. / U.K. Passport Number then notify people with a policy tip and email message. If there are at least 10 instances of the same type of sensitive info, block access to the content and send an incident report with a high severity level but allow people to override.	Edit
	Turn policy on after it's created? Yes Back Create Cancel	Edit

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

If a user attempts to upload a document to a Microsoft SharePoint site, and the document contains one UK passport number, the document will be [ <b>answer choice</b> ].	allowed blocked without warning blocked, but the user can override the poli	
If a user attempts to email 100 UK passport numbers to a user in the same company, the email message will be [answer choice].	allowed

## **QUESTION 56**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription.

You need to prevent users from accessing your Microsoft SharePoint Online sites unless the users are

connected to your on-premises network.

Solution: From the Azure Active Directory admin center, you create a trusted location and a conditional access policy.

Does this meet the goal?

- A. Yes
- B. No

# **Correct Answer:** B **Explanation:**

This solution applies to users accessing Azure Active Directory, not to users accessing SharePoint Online.

Conditional Access in SharePoint Online can be configured to use an IP Address white list to allow access.
