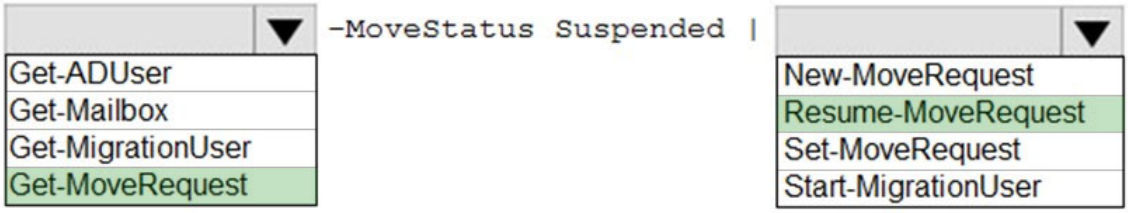
Answer Area



QUESTION 38
Your company has a Microsoft Exchange Server 2019 hybrid deployment.

Users in the advertising department and the editorial department of the company have mailboxes in Exchange Online.

A company policy requires that the advertising department users and the editorial department users be segmented based on the following requirements:

- The advertising department users must not see the editorial department users in the global address list (GAL).
- The editorial department users must not see the advertising department users in the GAL.
- The editorial department users must be treated as external recipients of the advertising department users.
- The advertising department users must be treated as external recipients of the editorial department users.

You need to recommend a solution that meets the requirements and minimize costs and effort.

What should you recommend?

A. In the Exchange Online tenant, create separate address book policies (ABPs) for the advertising and editorial departments.
B. Migrate all the mailboxes of the advertising department to the on-premises organization, and then enable address book policy (ABP) routing.
C. Purchase an additional Microsoft 365 subscription, and then migrate all the mailboxes of the advertising department to the new subscription.
D. Create two address book policies (ABPs) in Exchange Online, and then enable ABP routing for the Exchange Online tenant.

Correct Answer: D
Explanation:
https://docs.microsoft.com/en-us/exchange/email-addresses-and-address-books/address-book-policies/address-book-policies?view=exchserver-2019

QUESTION 39
You have a Microsoft Exchange Server 2019 organization.

You need to ensure that all email is retained for one year, and then moved to an archive mailbox.

What should you use?

A. a default policy tag
B. a data loss prevention (DLP) policy
C. a personal tag
D. a retention policy tag

Correct Answer: A
Explanation:
https://docs.microsoft.com/en-us/exchange/policy-and-compliance/mrm/retention-tags-and-retention-policies?view=exchserver-2019

QUESTION 40
You have a Microsoft Exchange Online tenant that contains 1,000 user mailboxes and 10 main enabled users. The mail-enabled users have email addresses in two SMTP domains named fabrikam.com and contoso.com.

You need to convert the mail-enabled users into user mailboxes.

What should you do first?

A. Add the users to an Office 365 group.
B. Assign a license to each user.
C. Remove the remote domains of fabrikam.com and contoso.com
D. Modify the email forwarding settings of each user.

Correct Answer: C
Explanation:
You need to remove the remote domains first then assign a license to the user account.

QUESTION 41
You have a Microsoft 365 environment that contains 1,000 mailboxes.

You need to ensure that only an administrator named Admin1 can use the Exchange Management Shell to manage

What should you do?

A. Create a conditional access policy and apply the policy to all users.
B. For all users, run the set-user cmdlet and specify the -RemotePowershellEnabled parameter.
C. Create a conditional access policy and apply the policy to Admin1.
D. For Admin1, run the set-user cmdlet and specify the -RemotePowerShellEnabled parameter.

Correct Answer: A

QUESTION 42
HOTSPOT
You have a Microsoft Exchange Server 2019 hybrid deployment.

You run the Get-HybridConfiguration cmdlet and receive the output shown in the following exhibit.

```
ClientAccessServers        : {}
EdgeTransportServers       : {}
ReceivingTransportServers  : {EX01, EX02}
SendingTransportServers    : {EX01, EX02}
OnPremisesSmartHost        : mail.litware.com
Domains                    : {litware.com}
Features                   : {FreeBusy, MoveMailbox, Mailtips, MessageTracking, SecureMail, Photos}
ExternalIPAddresses        : {}
TlsCertificateName         : <I>CN=CA, O=SSLCert Inc, C=US<S>CN=mail.litware.com, OU=IT, O=User1,
                             L=Redmond, S=Washington, C=US
```

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Answer Area

To enable users who have on-premises mailboxes to access their archive mailbox in Exchange Online, you must modify the **[answer choice]** property.

- ClientAccessServers
- Domains
- Features
- ExternalIPAddresses

Depending on where the user mailbox is located, to enable automatic Microsoft Outlook on the web redirection to either the on-premises organization or Exchange Online, you must modify the **[answer choice]** property.

- ClientAccessServers
- Domains
- Features
- ExternalIPAddresses

Correct Answer:

QUESTION 43

DRAG DROP

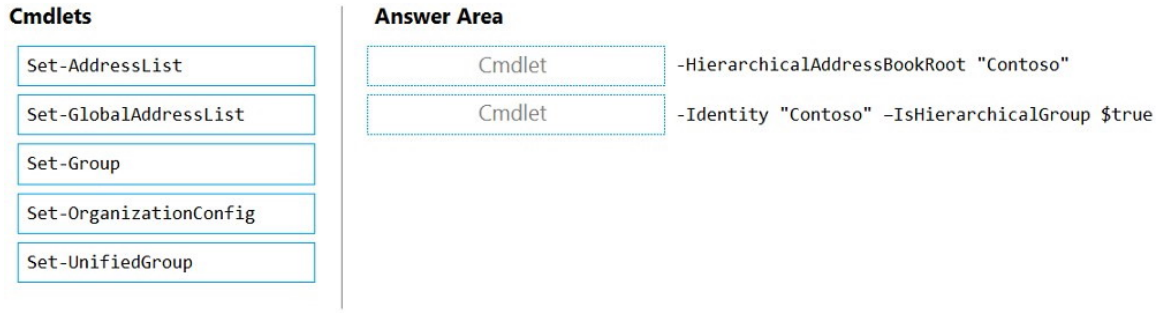
You have a Microsoft Exchange Online tenant.

You enable hierarchical address books (HABs).

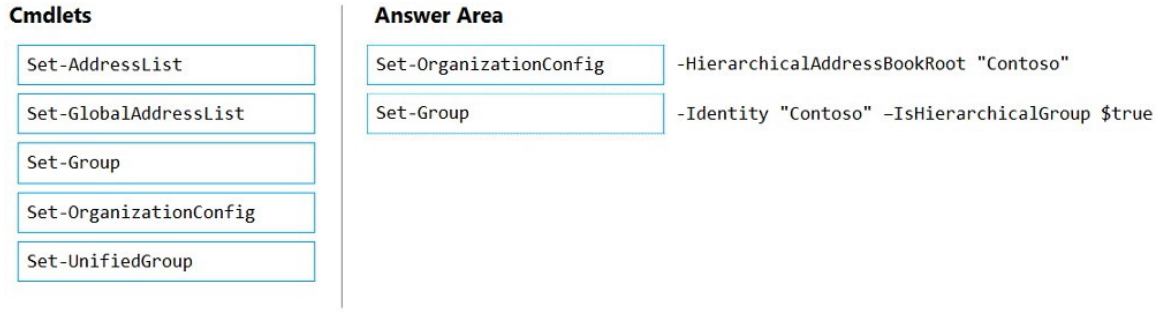
You create a new distribution group named Contoso.

You need to configure the Contoso group as the root of the hierarchy. The members of the group must appear in the hierarchy.

How should you complete the PowerShell commands?



Correct Answer:



QUESTION 44
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Exchange Online tenant that contains 1,000 mailboxes.

All the users in the sales department at your company are in a group named Sales.

The company is implementing a new policy to restrict the use of email attachments for the users in the Sales group.

You need to prevent all email messages that contain attachments from being delivered to the users in the Sales group.

Solution: You modify the permissions granted to the Sales group.

Does this meet the goal?

A. Yes
B. No

Correct Answer: B
Explanation:
Create a mail flow rule.

QUESTION 46
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Exchange Server 2019 hybrid deployment. All user mailboxes are hosted in Microsoft 365. All outbound SMTP email is routed through the on-premises Exchange organization.

A corporate security policy requires that you must prevent credit card numbers from being sent to internet recipients by using email.

You need to configure the deployment to meet the security policy requirement.

Solution: From the Exchange organization, you create a data loss prevention (DLP) policy.

Does this meet the goal?

A. Yes
B. No

Correct Answer: A
Explanation:
https://docs.microsoft.com/en-us/microsoft-365/compliance/data-loss-prevention-policies?view=o365-worldwide
